

DAILY GAZETTE

FRIDAY, SEPTEMBER 2, 1891.

GAZETTE CLEANINGS.

H. W. Durgis of White Oaks is in the city.

Flagstaff, the new town on the A. & P. R. R., just over the Arizona line, is growing rapidly.

Gov. Sheldon proposes to take a trip to the Southern country to learn all he can about the Apaches.

Two more companies of troops, E and M, of the 9th Cavalry, have been sent south from Santa Fe.

Twelve newsboys will run on the A. & P. and A. T. & S. F. R. R.'s, with headquarters in Albuquerque.

Albuquerque people are proud of their new Marshal, who keeps good order, and the town is now quiet.

Mr. Sheppard, a brakeman running between this city and Raton, is dangerously sick at Trinidad with typhoid.

Within the past few days Messrs. Mills & Hadley have written nearly half a million dollars in accident insurance policies.

Albuquerque people point with pride to the garden of the Jesuit Fathers in that city. It is filled with fruits and flowers and demonstrates the richness of the Rio Grande valley.

A runaway team ran into a buggy containing a lady and gentleman in the south part of town last evening. The buggy was smashed and the lady was scared, but no further damage was done.

The dead body of James Carlin, a section boss on the A. T. & S. F. R. R., was found in the weeds one-half mile east of Fort Dodge, on Tuesday morning. Verdict of Coroner's jury: Too much sunshine and whiskey.

The notorious desperado "Black Kid" was taken from the jail at Silverton on Tuesday night and hung. Eskridge and Wilkinson, who were concerned with him in the killing of Marshal Osgood, are still at large.

It is reported that a small band of Indians crossed between Deming and the Florida Mountains, eighteen miles south of there, on Tuesday night. The reds are reported to be lurking about in small bands, and a few are in the Floridas.

Col. R. W. Webb this week brought to Santa Fe from Golden, in the Cerrillos district, about \$1,500 worth of gold bullion from the mill at the camp. The mill has been running steadily and successfully for some time past, and the ore is yielding well.

Rio Arriba county is quiet now and the citizens are not molested by desperadoes. But they desire arms that they may defend themselves in case any bad breaks are made. Gov. Sheldon has assured a citizen of Chama, who laid the case before him, that the arms would be furnished.

If anyone in the southern country knows the whereabouts of John Ritchie, formerly of Ontario, Canada, they will confer a favor upon an aged mother by notifying the Times. The young man is supposed to be in the vicinity of Albuquerque.—Trinidad Times.

Hon. Trinidad Romero has decided to erect a residence in this city in order that he can move in from his hacienda in the winter. It will be of brick, and will be built opposite his old residence, near that of Mr. J. Rosenwald. Architect Wheelock is now engaged on the plans.

We were pleased to meet yesterday Mr. Theodore J. Emerson of the law and real estate firm of Taaffe, Emerson & Co. of St. Louis. Mr. Emerson is visiting New Mexico to see and learn of it. After spending some days at the Springs he came in yesterday and will go out to Mineral Hill to-day.

The stock belonging to the street car company have again been moved back to their old quarters in the Burris' stables. Superintendent Booth has so propped it up that in case a heavy wind should blow it over the props will carry the roof and timbers over the horses. Only one side of the stables are used.

P. Taylor the English mining expert who accompanied Prof. Robertson on his trip through the mining districts of the Territory left yesterday for Denver. He is very favorably impressed with what he has seen in New Mexico and his good words will go far towards inducing English capitalists to invest heavily in our mines.

Gen. John Pope, commander of the Department of the Missouri, is expected in Santa Fe, probably to confer with Gen. Hatch relative to matters concerning this military district, and to perfect plans for a campaign against the reds. A special car came down yesterday to take the general back to Fort Leavenworth, but is not needed in Santa Fe till the 5th.

Santa Fe has organized an independent military company with forty members enrolled. The following officers have been elected, who will appoint the non-commissioned officers: Captain, A. G. Irvine; First Lieutenant, J. T. Newhall. The company will be known as the "Governor's Rifles," and their application for arms will no doubt be favorably considered.

RAILROADISTIC.

Additional Reasons Why the Denver & New Orleans Should Come to Las Vegas.

The enterprising citizens of Denver, headed by ex-Governor John Evans, have projected a railroad from Denver to the Gulf of Mexico. It is now established that the line shall run from Denver to Pueblo in the first place. From the latter point the route south has not yet been determined. The plan of the road is to connect somewhere in Texas with the Fort Worth branch of the Gulf, Colorado & Santa Fe line, and several of the Denver papers urge that the road be constructed across the plains for that purpose. This route, of course, excludes any advantage to be derived from local traffic. But let it be considered that the Gulf, Colorado & Santa Fe is now constructing its own independent line from Galveston to Las Vegas, and that that road will be built rapidly here, then there will be an additional important reason for constructing the Denver road to Las Vegas. The plan is as above stated, to make a junction with the Fort Worth branch of the Galveston road somewhere on the Canadian River in Texas. At Las Vegas it can make the junction with the main line instead of the branch. The former route involves the construction of six hundred miles of railway over the barren plains while the Las Vegas route will necessitate the construction of only three hundred miles of railroad on the part of the Denver & New Orleans to make the junction. Besides, this short line will be through a country which will afford more local traffic than any other portion of the Rocky Mountains of equal extent. From Las Vegas the road will have a natural route by the Pecos river for future extensions, crossing the Texas Pacific near Fort Stockton, three hundred miles south of Vegas, and the Southern Pacific a short distance below that. Thus it would have three independent lines of railroad by which to reach New Orleans and Galveston instead of one. The advantages of this route are so great that we believe the road will be built.

On to Guaymas.

As has already been published, the project of building an extension of the A. T. & S. F. from Deming to connect with the Sonora R. R. has been abandoned. The line as graded for a short distance has been given up, and will not be ironed. An arrangement has been made with the Southern Pacific R. R. officials by which the A. T. & S. F. has the use of its track from Deming to Benson. The New Mexico & Arizona R. R., as that portion of the line this side of the Mexican boundary will be known will start from Benson, and ten miles of the road has been graded and ninety more is now under contract. Grading will be pushed ahead, and in about a month track laying will be begun vigorously under the direction of Richard Coleman, the best track layer in the West. In the meantime about three-quarters of a mile of track per day is being laid on the Sonora end, which is considerable considering the great disadvantages of laying track with the thermometer registering 100 degrees. When cooler weather comes this will be greatly increased. And the two roads will be built rapidly to effect a junction. The exact route has not been made known and probably will not be at present, as there are questions of right of way to be decided and the necessary course secured. It will not be many months before "all aboard for Guaymas" will be heard and through sleepers run from Kansas City and perhaps Chicago.

Cheeky Reds.

The people of Colfax county are righteously indignant at the wholesale slaughter of game by the Jicarilla Apaches who are running at large over the country. They have run down from their reservation on the west side of the range, giving as an excuse for their leaving that the stock men have encroached on their reservation and that the game is scarce. A few days ago a party of them camped on a high mesa between the forks of the Ponil, not far from Cimarron. They have been killing game wantonly, and the citizens have resolved that they must go. The Sheriff has ordered them off, and as they are trespassing on private property, the Maxwell Grant, they can be forcibly ejected. If the Sheriff needs any assistance he can readily command a large force that will cause the Jicarillas to beat a lively retreat. It is a cheeky thing for Indians to be suffered to kill game for the fun of it when white men are forbidden by law to kill it. Dr. B. M. Thomas, the Indian agent, has gone to Cimarron to see about returning the reds. He promises to take them back where they belong and it is to be hoped that he will.

Terrible If True.

It is rumored that an explosion occurred Wednesday at Simm's grading camp on the A. & P. R. R. in which seven persons lost their lives and many more were wounded. We are unable at this writing to obtain names of parties or any other particulars, and the report has not been confirmed by any other intelligence received from that quarter.

PERSONAL.

Don Miguel A. Otero is back again from the south.

T. F. Chapman left yesterday on a trip to El Paso.

Mrs. H. W. Durgis of White Oaks went east yesterday.

The two sons of L. P. Browne Esq. have gone to Kansas City.

Mrs. Y. Kohn, Miss Belle Kohn and George Kohn are up from La Cinto.

Superintendent W. W. Borst of the Middle Division came down yesterday.

Mrs. M. A. Otero and daughter, Miss Pritchard and Page B. Otero left yesterday for Denver.

L. Sulzbacher Esq., was called to Santa Fe yesterday on important business but will return home to-day.

Dr. Callen formerly of Tiptonville has gone to Raton to take charge of the Methodist church in the Gate City.

The family of Dr. M. W. Robbins after spending a couple of months in this city left for Kansas City yesterday.

Mrs. P. Cooley left yesterday for Colorado and after making a short trip through that State will visit Missouri.

Mr. C. Frank Allen the civil engineer of Las Vegas left Boston last night for this city after a short vacation at his old home.

Judge P. O. Lydon has returned from Cimarron where he has been in attendance at the session of the Colfax county court.

Miss Annie Sloan of Las Vegas will start next Monday to Fulton, Mo., to attend the next session of Synodical College.

Colonel J. M. Robinson the mining man who is operating in the neighborhood of Socorro and in the Black Range is in the city.

Dick Coleman went south yesterday. He will finish work at El Paso and then go to Benson to begin track laying on the New Mexico & Arizona R. R.

Mr. Carruth of Topeka, of Carruth & Layton, job printers, is in the city and will remain permanently. The firm will remove their entire job office here which will make a very complete printing establishment.

Doctor J. M. Cunningham is improving gradually. Yesterday he was removed from the residence of L. Sulzbacher Esq. to the St. Nicholas Hotel, and experienced no great inconvenience by being moved.

Miss Mary Snyder who last year taught school in Albuquerque is expected to pass through Las Vegas to-day on her way to that city where she will make her home. She will be accompanied by her brother.

Chief Engineer W. R. Morley of the Sonora Railroad who has sufficiently recovered to permit him to begin work again leaves for Sonora to-day. He has firmly resolved that if the climate does not agree with him he will return post-haste to New Mexico.

Captain J. C. Lea of Roswell on the Pecos and one of the leading citizens of Lincoln county is in the city. We are indebted to Captain Lea for many favors in the way of specimens of the agricultural products of the Pecos valley. These specimens have been the subject of many inquiries at this office.

Mr. George H. Sweet, editor of the Texas Journal of Commerce of Galveston after spending several days in Las Vegas left yesterday for Santa Fe and Albuquerque. He is very much interested in Las Vegas and believes that this is a good point for the Santa Fe & Gulf R. R. to aim for.

What Will be Done.

Thirteen six-mule teams passed through the city on their way to Denver to work on the line of the Denver and New Orleans railroad. They came from the Gunnison where they have been until recently engaged in freighting, the coming of the railroad driving them out. Nearly all of the teams were owned by private individuals but were under contract to distribute ties and bridge timber along the line of the Denver and New Orleans road. Ten more teams will follow.—Colorado Springs Gazette.

This shows that the Denver & New Orleans R. R. will be built, and the road will soon be in Pueblo. When it reaches Pueblo, the New Mexico & Southeastern or some other road will be grading, provided Gov. Evans does not see fit to extend his D. & N. O. from Pueblo to Trinidad and then through Long's Canyon and Caliente Canyon down the Vermejo to Cimarron and along the foothills to Las Vegas.

The Railroad Changes.

Messrs. T. J. Seely and Fred Leach, Jr., arrived in this city yesterday to assume their new positions, the former as superintendent of the division between Raton and Wallace, and Mr. Leach as superintendent of the division south. They will take a trip over the line with Chief Engineer Robinson, going south this forenoon by special train. Charlie Dyer and Mr. Saunders will act as Masters of Transportation on their old division for a few days till matters can be arranged. The Chief Train Dispatcher's office of this division will be located here as heretofore.

A New Dentist.

Remember that Dr. P. A. Ames, a graduate of the Maryland Dental College of Baltimore, will locate here in about six weeks for the practice of his profession.

Starting Out Well.

The Davenport (Ia.) Gazette has the following concerning a company that intends to operate in New Mexico, and with which our readers are somewhat familiar:

"The Davenport Exchange and Mining Company is to operate and control several hundred acres of rich placer mines in the Cerrillos district, New Mexico, conceded by the best informed as having received the washings of some of the richest mines in the world. They expect to at once develop the same, as they have already made an assessment for that purpose. The company do not intend to throw any stock on the market until satisfactory results have been obtained. They have authorized the General Manager of the company to secure timber lands for the manufacture of lumber. The General Manager, Judge Talbot, of Las Vegas, New Mexico, is well known through this State for his integrity and uprightness, and has had a large experience in mining and lumbering. Mr. W. O. Bennett, of this city, leaves shortly for the mines to assist in their speedy development. The result of the election for officers of the company was as follows: President, Dr. A. S. Maxwell; Vice-President, Thomas Thompson; Secretary, J. B. Carmichael; Treasurer, W. O. Bennett (Davenport); and Judge Talbot, General Manager, Las Vegas, New Mexico."

The Reds.

The report comes from Socorro that unmistakable signs and the trails of the reds have been found in the neighborhood of the Magdalena Mountains but no Indians have been seen. Signal fires are reported as being seen every night in the vicinity. The only authentic information concerning them, however, is the story of a Mexican who came into Socorro about four days ago to have a bad gun shot wound dressed. He reports that he and a companion encountered a band of forty reds west of San Marcial. His companion was killed and he barely succeeded in making his escape and with an ugly wound. The reds were then going in the direction of the San Mateo Mountains.

Mr. McDonald, outside superintendent of the Delaware Bridge Company, has a force of men at work on the iron span bridge and high trestle two miles south of this city on the line of the A. T. & S. F. When that is completed he will move his force down the line just this side of Deming, where another iron bridge will be put in for the railroad company near Hatch station. In about a month he will be obliged to take his crew to Texas, where his company has several contracts that demand immediate attention.

Real estate business is lively, and, although hardly able to be about on account of sickness, Mr. C. R. Browning, the energetic real estate agent, is constantly effecting big sales. Of the purchasers, who are convinced that Las Vegas real estate is a safe and good investment, are a number of gentlemen from Trinidad, Thomas Carson, a young English gentleman who will probably engage in the stock business in this Territory; and Dr. Longwill of Santa Fe.

HOTEL ARRIVALS.

ST. NICHOLAS.
D. Barnhart, Dallas, Tex.; W. Phillips, J. Manning, El Paso; C. W. Kennedy, Pecos.

SUMNER HOUSE.
W. J. Turpin, Indianapolis; L. R. Perkins, A. T. & S. F. R. R.; F. H. Leonard, Cincinnati; J. T. Leonard, N. M.; James Dougherty, Mora, N. M.

DEPOT HOTEL.
Mrs. J. Case, Tucson, Arizona; Demetrio Chavez, Mesilla; Thos. Carson, England; J. M. Robinson, Socorro.
